

Patch Release Notes

Release Date: **23/06/2026**

Version: **V49/release/14.00**

Set Up Requests

Area

<ul style="list-style-type: none"> Added invoice grand total and deposit percentage to the deposit email template model. 	Branding/ Mark Up Templates
---	-----------------------------

Bug Fixes

Area

<ul style="list-style-type: none"> Fix users not being able to download proofs sometimes from valid links from the proof email 	Artwork/Proofs
<ul style="list-style-type: none"> Job details clicking box labels made to include associated jobs labels 	Branding/ Mark Up Templates
<ul style="list-style-type: none"> Fixed issue when double clicking in capacity planner list to add a locked time block for a location with a differen timezone than the site, error would occur. 	Capacity Planner
<ul style="list-style-type: none"> Fixed an issue where Order Confirmation email for a job that had a rework applied would incorrectly include the rework job's cost in the {AcceptedItems} total, even when the rework carried no charge for the customer. 	Emails
<ul style="list-style-type: none"> Fixed an issue where auto-generated invoice PDFs from OPO deliveries could fail to render due to incorrect access validation. Invoices triggered by supplier consignment dispatch now correctly use the generated access link. 	
<ul style="list-style-type: none"> Fixed issue with auto invoice emails being sent with the base template even when a site-specific email template exists for the invoice's site 	
<ul style="list-style-type: none"> Fixed simplified product tree still showing after selecting a filter tree node that has sub products inside it 	Factory set up
<ul style="list-style-type: none"> Fixed shop floor users not having access to the sub dispatch board when they can access the dispatch board 	Freight
<ul style="list-style-type: none"> Fixed retail price list freight overrides not applying 	
<ul style="list-style-type: none"> Fixed issue with recurring jobs failing to create 	Jobs/Production
<ul style="list-style-type: none"> Fixed large acceptances through API sometimes causing jobs to appear in a different order from cart order. 	
<ul style="list-style-type: none"> Update to units on an IPO will also update units in IPO markup template 	Purchase Orders
<ul style="list-style-type: none"> When creating an IPO for multiple lots make sure the price isnt adjusted incorrectly 	
<ul style="list-style-type: none"> Made change to allow users to anonymously accept a quote even if they are logged in as a customer user 	Quoting
<ul style="list-style-type: none"> Fixed an issue where section operations with outsourced finishing and no pricing components were returning a price instead of showing ""Not Priced"". 	
<ul style="list-style-type: none"> Fixed an issue where completing an Inventory Purchase Order without receiving goods incorrectly displayed the Ordered Quantity as the Actual Quantity. The Actual Quantity now correctly shows zero when no goods have been received, and reflects the actual received amount for partial receipts. 	Stock/Inventory

Patch Release Notes

<ul style="list-style-type: none"> Granted customers access to the sale orders upload page. The role Sales Customer is required 	Store/Sales Item
