

Instructions for GeoWiz data transfer to safety official

*Please keep these instructions in the vehicle

1. If you have not yet entered the Inspect logs page, from the ELD page tap Tools | Inspect Logs.
2. On the Inspect Logs page tap the “Send Log” button on the top of the page.
3. If the transfer types are not visible tap the gray bar labeled “ELD Data Transfer” to expand the list.
4. Select one of the first 4 items depending on the type of transfer required
 - a. 1 & 2. While connected to the internet, for either of the Web Services options type a comment in the “Inspector Comment or Phrase” box, if custom range then select the start and end dates then tap “Send”. A message will appear indicating your log is being sent.
 - b. 3 & 4. To send Via Enforcement Bluetooth® Interface, connect to the safety official’s Bluetooth® Interface using his instructions. Type a comment in the “Inspector Comment or Phrase” box, if custom range then select start and end dates then tap “Send”. A message will appear indicating your log is being sent.
5. For sending logs through USB 2.0
 - a. Type a comment in the “Inspector Comment or Phrase” box.
 - b. Make sure that you are connected to the encrypted USB transfer device provided by the safety official, and tap “Send”.
 - c. Select the destination from the list and tap “Save”.
6. To send to an email address select the “Email-Not Sent to FMCSA” option. Enter the email address and any desired comment and tap “Send”. *Note: this option does not send to the FMCSA Web Services.*
